The models EE6237, E61AB and EE-PR-05014 are outdoor industrial intercom stations for heavy duty applications such as chemical plants steel mills paper industry ect..

The communication is semi-duplex (speak/listen function controlled by voice). All stations are provided with a red optical indication soon the microphone of the station is activated.

Depending of the model numbers, stations will be provided with a noise cancelling microphone which allows communication into even high noise areas.
